Advanced

- 🔗 Javascript, HTML & CSS
- 🔗 WordPress
- 🔗 React

Intermediate

- 🔗 C# - .NET Core & Framework
- 🔗 Node.js
- 🗄 Microsoft SQL server (MSSQL)

Basic

- git Git
- 🔗 Postman
- 🔗 MongoDB

Languages

Hebrew – Native language
English – Good command

ABOUT ME

Full Stack Developer with expertise in building scalable and responsive web applications. Skilled in web development, object-oriented programming, API integration, and debugging. Passionate about problem-solving, collaboration, and analytical thinking, ensuring efficient and secure solutions. Continuously expanding my knowledge through self-learning and keeping up with industry trends to develop high-quality, optimized applications.

Work Experience

Freelance Personal Projects: · Game-Center

Application: Developed a game center with multiple games using C# and WPF. Included interactive features such as score tracking.

· **Personal Portfolio:** Created a responsive portfolio website showcasing web development skills.

Technologies: HTML, CSS, JavaScript

· **Card-Based Social Network:** Built a network for user interaction and content sharing. Used React and Node.js for front and back-end integration.

Education

HackerU College (555 Hours) September 2023 -

February 2025 Completed an intensive 1.4-year program

specializing in Full Stack Development, focusing on both client-side and server-side technologies. The program

provided comprehensive training in modern development tools and practices, preparing me for real-world projects in various environments. **Key Highlights:**

- Developed hands-on projects involving web and desktop applications using technologies such as C, .NET Core, JavaScript, HTML, CSS, React, Node.js, SQL, and MongoDB.
- Acquired practical skills in object-oriented programming, database management, web API integration, and automated testing.
- Gained experience in version control systems and web security practices.
